Got it. A table is fine as long as its formatted to fit within an 8x10 page with normal margins.

Columns b and c work but the others wont be needed. Just same level of detail as the bullet points.

I just resent it. Let me know if you received it.

Thanks

Scott F. Kirchner

Thanks Jen

Did you have a chance to look at the 2 formats to call out the various studies in the CSTAG memo (table of site investigations versus bullet type groupings of same)? I need to start wrapping that section up. So Aaron has it tomorrow.

Thanks

Scott F. Kirchner

Subject: LPRSA - Pb model - Coordination with NB team

Hey guys, I wanted to let you know that Marian Olsen will be reaching out to Kristen in the near-future to discuss some of the Pb modeling work that was done for Passaic. Marian is working with Battelle on the Newark Bay OU and that team has some questions about the Pb model.

Just a heads up – please let me know if you have any questions.

Thanks,
Jen
